

Re-engage your audience with web push notifications

 The fastest way to reach your customers

CREATE DEEPER RELATIONSHIPS WITH YOUR CUSTOMERS

Web push notifications are a great way to bring back visitors to your website and convert your potential buyers into loyal customers. Push notifications allow you to instantly engage your customers with tailored messages delivered to their mobile and desktop devices. If your not sending push notifications, your leaving a lot of your user aquisition investment on the table.

1. INSTALL IN MINUTES

Simply paste the JavaScript tracking code and upload the service worker file, or install our Shopify app

2. COLLECT SUBSCRIBERS

Gain new subscribers in a single click without asking for information

3. ENGAGE AUDIENCE

Schedule, automate or use our robust api delivered instantly to your targeted segment of subscribers

FEATURES

SEGMENT YOUR AUDIENCE

While your entire audience shares an interest in your brand or website, they are still a unique mixture of people. Segmenting your audience allows you to craft more personalized campaigns that are more likely to resonate and result in a click back to your website.

New Segment: Target Audience #2

FEATURES

INCORPORATE ACTION BUTTONS

Call to actions (or CTAs) help in just about any marketing situation, and that includes web push. Giving your subscriber a specific goal to complete, as well as an easy way to do it, is a great way to boost your overall web push effectiveness.

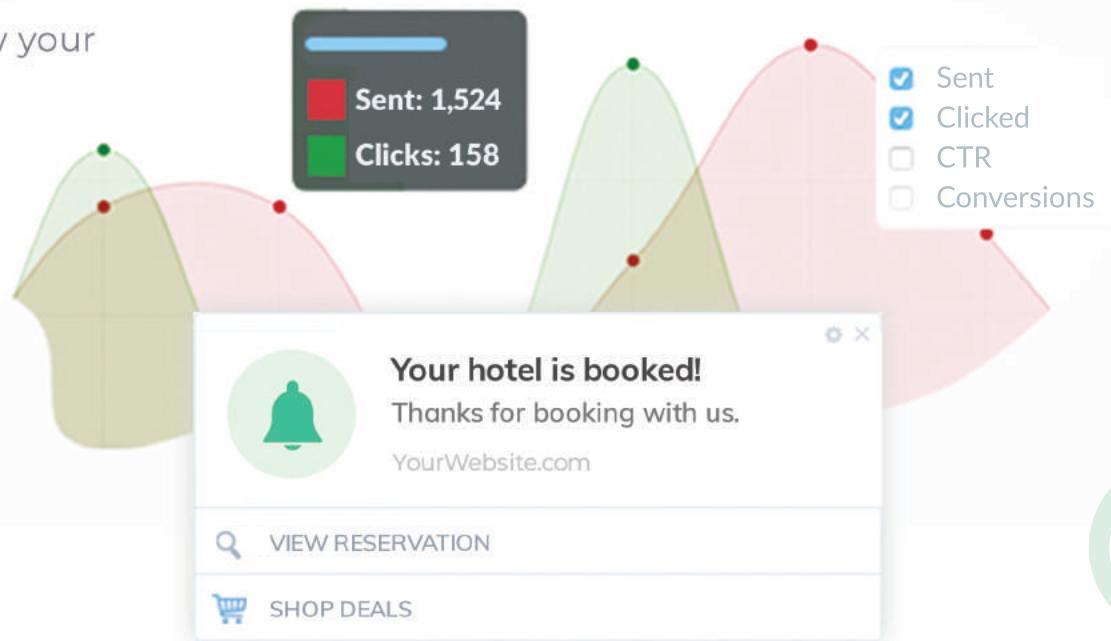

FEATURES

CONVERSION TRACKING

Conversion tracking is a great way to see how your push campaigns are performing. Track total conversions, conversion amount, and your conversion rate.
